To Whom It May Concern,

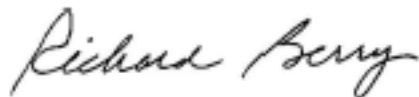

Re: MARKEM Chemical Products and EU Directive 2002/95/EC (RoHS) Requirements

EU Directive 2002/95/EC states that lead, mercury, cadmium, hexavalent chromium, polybrominated biphenyls and polybrominated diphenyl ethers shall be banned from electrical and electronic equipment. The limits are 0.1% by weight for lead, mercury, hexavalent chromium, polybrominated biphenyls or polybrominated diphenyl ethers and 0.01% by weight for cadmium.

The MARKEM chemical product(s) listed below do not contain lead, mercury, hexavalent chromium, polybrominated biphenyls or polybrominated diphenyl ethers in amounts greater than 0.1% (1000 ppm) by weight or cadmium in amounts greater than 0.01% (100 ppm) by weight. MARKEM does not intentionally add any of these substances to its chemical products. The presence of bromide in MARKEM chemical products does not indicate the addition of polybrominated biphenyls or polybrominated diphenyl ethers.

Product: 4488 White	Part Number: 8026719	
Banned Material	Amount (parts per million)	EPA Test Method
Cadmium (Cd)	< 0.500 ppm	SW 6010B
Hexavalent Chromium (Cr [VI])	< 0.500 ppm	SM 3500-CrD
Mercury (Hg)	< 0.250 ppm	SW 7470A
Lead (Pb)	< 2.50 ppm	SW 6010B
Polybrominated Biphenyls (PBBs)(as bromide)	< 10.0 ppm	300.0
Polybrominated Diphenyl Ethers (PBDEs)(as bromide)	< 10.0 ppm	300.0

Sincerely,

Richard Berry
