Subject: ABLEBOND[®] 2000, 8510AA, and 2300 Adhesives

To Whom It May Concern:

Ablestik's paste and film adhesives products have been safely used for microelectronic applications for over 40 years. They provide a balance of properties that enables the finished product to meet your stringent end use requirements.

On the basis of our review of formulation, and Material Safety Data Sheet, for each component, Ablestik neither uses nor adds any **PFOS(Perfluorooctance sulfonate) and it's salts or any PFAS(Perfluoroalkyl Sulfonate)** to the formulation of **Ablebond[®] 2000, 8510AA, and 2300 Adhesives**.

ICP data is not provided by Ablestik Laboratories for packaging materials but Ablestik does require all packaging suppliers to comply with all local and regional laws, including environmental and regulatory requirements.

Ablestik, as a Responsible Care Company, strives to protect the health and safety of our employees, our customers' employees and the environment while providing technically superior products that offer unsurpassed value. If you have any questions about this information, please contact Safety, Health, and Environment Department of Ablestik. Phone #: (310) 605-5748, Fax #: (310) 763-2725.

Thank You
