TO: Maxim's Valued Customers

RE: Elimination of Ozone Depleting Substances (ODS)

Maxim has determined that its internal manufacturing processes do not use Class I ODS in direct manufacturing and our parts do not contain Class II ODS. On the basis of the final labeling rule published in Federal Register / Vol. 58, No. 27 / February 11, 1993, **Maxim is not required to label parts.**

Maxim is concerned with issues affecting our environment and will continue to work with suppliers to reduce and eliminate the use of ODS in the supply chain.

Sincerely,

A handwritten signature in black ink, appearing to read "John F. Gifford". The signature is fluid and cursive, with a large initial "J" and "G".

John F. Gifford  
CEO, President
